The smart solution in surface preparation

What is dustless blasting?

- Easy to use: no special training or certification required
- Faster:
  - Blasting: reduce time spent preparing surfaces
  - Painting: reduce lost time waiting for surfaces to dry
- Cleaner:
  - Suppresses airborne dust for more efficient cleanup
- Better finishes:
  - Improves precision and performance of the coating
- More versatile: blast sand, walnut shells, soda bicarbonate, sugar sand, crushed glass, coal slag, garnet, steel shot, aluminum oxide, silicon carbide, plastic abrasives, and more

What can blasting do?

1. Pressure control at your fingertips
2. Cutting edge dust suppression
3. Wet blasting typically reduces temperatures by 10º from ambient
4. Soda blast— all in one kit

What is dustless blasting?

- Reduces airborne dust
- Enhances flexibility
- Ensures compliance with OSHA, EPA, and DEQ regulations

Powerful enough to blast your fingertips, yet gentle enough to use on priceless antiques.
