

CASE STUDY

Strip Paint and Rust from 34' Boat Bottom

Objective: Strip failing coating from 34' boat bottom

Location: Myrtle Beach, SC

This contractor says that his fan nozzle made a big difference in how quickly he was able to strip this 34' boat. He also wore a Nova 3 blast respirator to stay clean and comfortable while working.

"Two layers of bottom paint melted off with the Dustless Blasting machine. Left the perfect profile for a new layer of bottom paint **that will last.**"

Clean Air Blasting LLC, Myrtle Beach, SC
