REMOVING PAINT FROM A BRICK HOME WITH THE DUSTLESS BLASTER

The owners of this home were tired of the white paint covering the red brick. They didn't know of a cost effective way to remove it, until they found Mobile Blast Away Restoration Services, in Lagrangeville, NY.

Using their Dustless Blaster™, Mobile Blast Away Restoration Services was able to knock off this unsightly paint in about 20 hours.

Using 40/70 crushed glass at a blast pressure of 80 PSI allowed the paint to be removed without damaging the old masonry underneath. Dry sandblasting often etches and creates pits in brick. Dustless Blasting™ makes it look like new.

80 BAGS OF MEDIA = \$800
58 GALLONS DIESEL = \$150 **= \$950**

BILLED TO CUSTOMER = \$5600
(1400 SQUARE FEET AT \$4 PER SQUARE FOOT)

TOTAL PROFIT
\$4,650
IN 20 HOURS
